-

EXPERIENCE

U.S. Army National Guard - All Source Intelligence Analyst (TOP SECRET/SCI Clearance)

March 2020 - PRESENT

- Familiar with DoD Security management procedures; DoDMs, Army Regulations, AFMANs, ICDs and other DOD Issuances
- In-depth training with data management, knowledge management, record keeping, and dissemination of sensitive and classified information.
- Familiar with and proficient in interpreting information from policies and regulations across the federal, civil, and industry sectors.
- Maintain and control access to classified information, in accordance with DoD regulations.
- Familiar with accessing, operating, and protecting information on classified information networks.
- Configure communications security hardware on transportable tactical command communications (T2C2) for NIPR and SIPR support.

Domestic Operations: Summer 2021-Present (California Army National Guard Duty)

- Manage access for CUI material for the Domestic Operations Awareness and Assessment Response Tool.

- Assist the Officer in Charge (OIC) on the protection of sensitive data for each mission according to the appropriate system of record.
- Perform as assistant security manager in the PAD cell.
- Trained on regulations governing visiting personnel, information protection, operational security, and physical security requirements needed to keep the PAD Cell operational.
- Support the California Office of Emergency Services (CalOES) efforts to fight wildfires.
- Train new analysts on how to use Geospatial tools, analyze fire behavior, and generate products in accordance with ICD 203 and Incident Awareness and Assessment guidelines.
- Utilize customer service skills, and coordinate with emergency crews, CalFire Agency, and the U.S. Air Force to task aircrafts to observe fire perimeters and damaged structures.
- Manage service members' pay and attendance tracking as a RAPTR operator.
- The efforts and coordination I perform are a critical part of the State of California's effort to garner federal resources necessary to continue battling the fires.

LAC USC Medical Center: Laboratory Assistant

August 2016 - PRESENT

- Conduct out-processing briefings for laboratory personnel.
- 5+ years of effectively conducting information security in accordance with 45 CFR 160.
